## The Tuscany you don't know

Made in Tuscany is a bellwether of style and functionality. We start 2021 by bigging up the brands who make a difference in our daily lives.

The sun is rising over the cypress trees as you stretch in the comfort of your wrought-iron **Caporali bed**, made in Subbiano, Arezzo since 1885. Pad into the **Officine Gullo** kitchen, a timeless masterpiece emblazoned with the Florentine giglio and produced on the premises in Antella, near Florence. Switching on the **La Marzocco** coffee machine, meticulously engineered in the Mugello since 1927, it's time to fill the sleek Mini with the best of beans lovingly sourced around the world and roasted in Florence by **D612**. Wipe down your Carrara marble worktop with Regina kitchen paper from Porcari, near Lucca, then sip some Acqua Panna, fresh from its fourteen-year journey through the aquifer springing forth in Scarpèria. In the bathroom, shower with Calenzano-headquartered **Manetti & Roberts** toiletries before refreshing with **Marvis** toothpaste and preen

with **Proraso** shaving products, both manufactured by Ludovico Martelli in Fiesole. Dress in an **Ingram** shirt, stitched in Sansepolcro, high fashion trousers by the likes of **Gucci** or **Pucci**, and a contemporary sweater using recycled fibres by **Bob Company**, with handmade footwear by **Saskia Wittmer**, **Stefano Bemer** or Florentine behemoth **Salvatore Ferragamo**. Don a scarf by Nora Kravis' **Chianti Cashmere** and a bright orange Casentino wool coat by **Tessilmova**. Strap on your reassuring timeless by **Locman** (Elba Island), **U-Boat** (Lucca), **Visconti** (Florence) or **Panerai** (Florence) before hopping on your Pontedera-produced **Piaggio** motorbike or taking the Pistoia-built **AnsaldoBreda** tram. Cleanse with lavender-scented hand sanitizer by Lucca brand **Erborio Toscano** before starting your working day at an inspired desk designed by **Novo Italia** in Quarata.

Savour a lunch served on **Richard Ginori 1735** plates and the table laid with historic **Busatti** woven linens from Anghiari, **Pampaloni** Florentine silverware, creative centrepieces by **IIV** in the Valdarno and stemmed eco-crystal glasses from **RCR** in Colle di Val d'Elsa. Back at work, arrange to have your company's own Tuscan-made goods shipped anywhere in the world by **Savino del Bene**, established in Scandicci in 1899. On returning home, curl up under a blanket by Prato-based **Lanificio B** while reading *The Florentine* (of course! In print or digital) and **La Nazione**, one of Italy's oldest newspapers, founded in 1859.

Finish the day with an immune-system-boosting tincture by Sansepolcro healthcare company **Aboca**—if you're feeling a little under the weather, your doctor might have prescribed medicines by **Menarini**—and apply Sesto Fiorentino's **Idea Toscana** face cream concocted from organic local olives. Turn off your low-impact recycled Re-lamp by **Maniplast** and dream of a Viareggio-constructed yacht (**Sanlorenzo** or **Mangusta**, perchance) exploring the open Mediterranean in the sweet summer of 2021. Or more realistically, a **Laika** camper van from San Casciano Val di Pesa...

Tuscany's focus on international trade is borne out in the share of Tuscan exports compared to total Italian exports, with a percentage of over 7.5%. Fashion, engineering and precious metalworking sectors are the primary sectors for exports. (Source: ISTAT, Italian Office for National Statistics)

la cosiddetta parte "bianca", in muratura, che ospitava gli ambienti domestici e comprendeva anche la stalla. E c'è la parte cosiddetta "a monte", in legno, con funzione soprattutto rurale. "Ho curato il recupero di questa parte rustica anche per quanto riguarda gli aspetti statici, dal rifacimento della copertura in pot. Questi volumi lignei regalano spazi magnifici su cui lavorare e offrono stimoli formidabili per la creazione di percorsi". La prima visita a una futura casa, per l'architetto Piccini, è molto importante. "È un momento sospeso, in cui posso ripercorrere il

passato, 'dialogare' con le antiche maestranze, respirare la storia di una costruzione. Gli stimoli sono tanti. A livello visivo: soffermandomi sulle grandi capriate e sulla disposizione dei singoli elementi. A livello uditivo, perché prima di cominciare ad essere casa questi volumi sono un involucro in cui filtrano fascinazioni esterne: penso al vento che soffia, al suono delle campane, alle voci del piccolo borgo. A livello olfattivo: c'è profumo di legno, di fieno...". La casa è di proprietà di una famiglia di giovani avvocati e imprenditori bolognesi. "Una coppia innamorata di Cortina. Per me sono stati come

**BOSA**  
**QUEL VASO BUFFO RICORDA UN RE**  
Un teatro di personaggi di fantasia con il proprio ruolo: li propone Bosa con una galleria di vasi di ceramica firmati da Jaime Hayon. Tra questi anche un re (foto Cristina Vaquero)

**PORADA**  
**SAM, SERVOMOTO CON ELEGANZA**  
Un classico dell'arredamento della camera da letto rivolto all'uomo: un elemento pratico che in questa versione di Porada acquista un'eleganza nuova per la preziosità

dell'essenza (massello di noce canaletta) e per la plasticità delle forme. Il servomoto "Sam" aiuta a riporre gli abiti da lavoro e si compone di giuocchetta, portapantaloni, svuotatasche con specchio orientabile e anche di una seduta rivestita nei tessuti della collezione. Ad eccezione di quest'ultima, i vari elementi sono intercambiabili.

**CAPACITÀ DI PERSONALIZZAZIONE SOSTENIBILITÀ E TANTA TECNOLOGIA**

**LA POLTRONA IL RIPOSO DEL GUERRIERO**

Se la poltrona ricorda il trono, ne riprende le forme e non più (per fortuna) il ruolo, ecco allora che l'identificazione con la figura maschile resta presente. Nella sua storia questo elemento dell'arredamento continua a portare con sé i caratteri di una personalità marcata, non per forza maschile, ma sappiamo quanto spesso questa diventi un oggetto personale, la "mia" poltrona.  
**Arper** ha lanciato lo scorso anno un'evoluzione della poltrona "Aston", la versione "Club" (progettata di Jean-Marie Massaud), che ha i componenti interni della seduta in plastica riciclata post-industriale. A fine vita, "Aston Club" può essere completamente disassemblata e tutti i materiali di cui è composta possono essere riciclati o riutilizzati, riducendo complessivamente gli sprechi. Inoltre è prodotta senza l'utilizzo di colle, con lo scopo di ridurre le emissioni e consentire lo smaltimento responsabile di tutti i componenti.  
**Edra** con "Chiara" (designer Francesco Binfaré), riafferma la sua linea di prodotti altamente tecnologici rivestiti di eleganza, adatti a qualsiasi ambiente, capaci di integrarsi con gli arredi presenti grazie all'ampia gamma di rivestimenti esclusivi proposti. "Chiara" poggia su una crociera in acciaio spazzolato con finitura nichel e dà quasi l'impressione di essere sospesa nell'aria. Ha nello schienale il "cuscinio intelligente", un brevetto esclusivo aziendale che permette di essere modellato a piacere per restituire il massimo del benessere. Si accompagna a un pouf coordinato per un comfort assoluto.

**DA STRUTTURA DI UTILITÀ PRATICA A CABINET DI OGGETTI ED EMOZIONI**

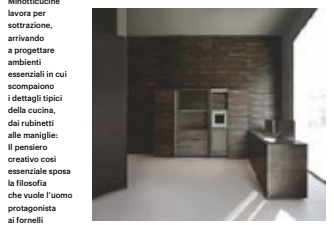

**UNO SCRIGNO PER CUSTODIRE PASSIONI SEGRETE**

**Amarantos**, il fiore che non appassisce mai, eterno. Al colore di questo fiore, cantato dal poeta inglese John Milton si ispira questo cabinet che come uno scrigno prezioso è destinato a racchiudere oggetti e emozioni, ricordi, passioni mai dimenticate. L'idea di costruire una *wunderkammer* per lui è di **Promemoria**: si chiama "Alchemico Lui" la versione destinata a custodire gioielli al maschile, gemelli e fermacravatte, orologi e penne stilografiche, insieme a segreti di carta. L'amaranto è una pianta dal legno pregiato, proveniente dall'America tropicale: di colore grigio-bruno quando è fresco, con la stagionatura assume alcune tonalità violacee mentre base, profili, maniglie e cerniere sono in bronzo; gli interni accessoriati con cassetti, ante e ribaltina sono rivestite in pelle e dettagli in pelle nabuk, l'illuminazione è a led.  
**L'armadio** dove riporre con cura le proprie cose non basta mai. È dall'esigenza di creare spazi dedicati all'uomo nasce il progetto di Piero Lissoni per **Boffi**: si chiama "Antibes" e nella sua dimensione modulare si configura come una cabina armadio walk-in, una stanza nella stanza. Alla vasta gamma di pelli o tessuti microfibra per i rivestimenti di ripiani, fondali e cassetti, si associa la componibilità di elementi funzionali, telai strutturali, ante a battente o scorrevoli di pregio. Il desiderio di esporre e tenere a vista guardaroba, scarpe e accessori, trova un raffinato livello di gratificazione nell'uso sempre più spinto del vetro, per piani e terminali dei contenitori.

**SCULTURE MINIMALISTE DI METALLO TANTA TECNOLOGIA OUTDOOR**

**MA È IN CUCINA CHE L'UOMO FA FUOCO E FIAMME**

**Luogo della creatività**, della passione. Rifugio dallo stress mentale, palestra di novelli chef: chi l'ha detto che la cucina è un luogo adatto solo alle donne?  
**Minotticucine** propone pietra, legno, bronzo a livello essenziale, facendo sparire maniglie, zoccoli, perfino rubinetti. Dettagli ritenuti superflui dall'art director Alberto Minotti: il "silenzio visivo" è dato dalla sottrazione, dall'essenzialità raggiunta, l'uso dei colori e dei materiali diviene rigoroso ed intrasigente. Il risultato sono volumi monolitici, monocromatici e monomateriali. All'apparenza, ma solo all'apparenza, sculture.  
**Officine Gullo** è tradizione fiorentina che sa innovare, con proposte di cucine in esterno che uniscono il piacere della ricercatezza cromatica a dettagli come le manopole retroilluminate, le cerniere rallentate, la vaschetta porta ghiaccio e la zona cottura a raggi infrarossi. Il bbq è servito da potenti bruciatori e le griglie in acciaio inossidabile raggiungono quasi lo spessore di un centimetro.  
**Frigo2000** dà spazio ai dettagli di qualità e stile con **Kaelo**, refrigeratore integrabile in qualsiasi piano cucina o di lavoro, anche un tavolo da riunione: nasce per tenere alla temperatura ottimale una sola bottiglia di vino, senza bisogno di programmare la temperatura. Classico dell'attività conviviale all'aria aperta, il barbecue **Wolf** è al top del settore, per la qualità professionale unita alla tecnologia dual fuel: da abbinare ai cassetti refrigeratori e scaldavivande da esterni **Sub Zero**.

INTERIORS

## Space odyssey

How one forward-thinking brand is fusing interiors, art, fashion, Michelin-starred food and VIP screenings in an exclusive corner of Knightsbridge

WORDS: JEMMA SISSONS

**W**ell-polished Knightsbridge is no stranger to well-heeled boutiques, soigné ateliers and one of the biggest "concept stores" in the world – the grande dame that is Harrods. Yet there is, quite literally, a new kid on the block, which is set to offer a groundbreaking and forward-thinking twist on retail. Unlike many other concept spaces, its roots aren't in fashion, but interiors. Famed for its hand-built kitchens and interior architecture, Smallbone has now taken over an expansive four-storey 15,000sq ft space on the corner of Ovington Gardens and

**COUNTER CHETURE**  
**Left:** Cooker from £8,400, bespoke cooker hood, £9,260, both in custom finishes from Officine Gullo, [officinegullo.com](http://officinegullo.com); bespoke kitchen cabinetry in a timeless blue from £80,000 designed here [lekk.com](http://lekk.com); Verde Guatemala marble worktops, from 196 per sqm, [lapicida.com/uk/en](http://lapicida.com/uk/en); The Harford in Nightshade, from £28,000, Tom Howley, [tomhowley.co.uk](http://tomhowley.co.uk)

**KITCHENS**

As with all this year's leading trends, nature directs colour in the kitchen for 2021, with deep-water blues and earthy forest greens, hues that look confident, calm and comforting. "These bold colours can make your kitchen feel spacious and contemporary – the key is to be consistent in textures and materials, so the colour doesn't overwhelm the space," says Ben Burbidge, managing director of Kitchen Makers ([benburidgekitchentmakers.co.uk](http://benburidgekitchentmakers.co.uk)).

As part of your commitment to sustainability, why not make 2021 the year you opt for your new colours to be hand-painted? "If you notice signs of wear and tear, a well-built, hand-painted kitchen can simply be sanded down and repainted, while painting on site means the furniture can be coloured and finished in a bespoke way, to suit the conditions of the space and to your taste," says Charlie Smallbone of Ledbury Studio ([ledburystudio.com](http://ledburystudio.com)).

Raw materials – rustic woods, charred timber effects (try Rencó, an FSC Certified contemporary kitchen range British-made from 100 per cent recycled materials, by [datal-furniture.co.uk](http://datal-furniture.co.uk)), brass and gold metal finishes (Officine Gullo's Ultramarine Blue & Burnished Brass cooking range, [officinegullo.com](http://officinegullo.com)) and matt black accessories – will extend the natural palette and add definition to the

dark colours. "Materials will be purer and natural rather than too polished or plastic, and we'll invest in statement pieces, with the clashing of styles resulting in a timeless aesthetic – buy once, buy well and make it last longer," says Hayley Robson, creative director of Day True ([daytrue.com](http://daytrue.com)).

With many of us cooking more at home, thoughtfully designed storage will be essential. Likewise, we have learned that an ad hoc approach to multi-purpose, open-plan living is a false economy. "Designer details such as bespoke furniture arrangements, integrated media systems, walk-in larders and hideaway storage, extra power outlets and

DISCOVER RESTART COOKING RANGES

**PURE VANITY**

Inject 1920s charm into your bathroom with this elegant unit. The best bit? You get so much choice with its look that it will feel bespoke. The lacquered wood doors come in pink, black, white, cream and grey. You can also pick your choice of marble for the top, and the legs and handles come in brass, chrome, nickel or light gold. Decisions, decisions... Scottie vanity unit, from £8,668.37, West One Bathrooms

**ITALIAN FLAIR**

Officine Gullo, renowned for its luxury, handcrafted kitchens with signature metalwork, has unveiled Restart Ranges, a collection of domestic range cookers that have all the artisanal qualities of its bespoke pieces. Made in the Tuscan countryside, the ranges are inspired by the decor of old Florentine villas and their standout features will make them a focal point in any space. There are four sizes available, from 90-120cm wide, and three door styles – brass, glass and solid. The Restart Ranges collection starts at £6,948, Officine Gullo

**LINE UP**

The Bamboo collection by Otto Tiles & Design taps into the trend of 3D tiles and all things linear. Each tile, which is made on demand, is hand-drawn and painted before the surface is glazed, giving it its perfectly imperfect finish. The range is available in 10 colours and in the unlikely case of not finding one that sparks joy, you can order a custom colour, too. Bamboo ceramic tiles, from £2.21 each, Otto Tiles & Design

**FINAL DROP**

The Drop Three pendant is the last in Original BTC's Drop series. The collection follows the journey of a droplet of water through the air and this bone china light captures the moment when it flattens as it hits the ground. Designed 20 years ago, it was initially pulled from the range because it proved too technically challenging to make but thanks to new developments, it has finally made a long-awaited appearance. Drop Three pendant, £389, Original BTC

## GRILLING IN STYLE

OUTDOOR COOKING ISN'T JUST FOR THE SUMMER. ANJ CONNELL EXPLORES AS SHE INTRODUCES US TO SOME HIGH-PERFORMANCE BBQ'S AS WELL AS A SOLAR POWERED PROTOTYPE WE MAY SEE MORE OF IN THE FUTURE

**D**ining alfresco is always a little more fun, and BBQing has a way of transforming a regular meal into a social engagement. Plus, it gives you an excellent opportunity to spend time with your bubble. Spending time outdoors on long summer nights is always something to look forward to, and there is no reason that it can't be a year-round pleasure. There are many excellent fires available to keep us warm and toasty throughout the year, as well as stylish covers to keep off the rain and calm any prevailing winds – the Toke Garden Fire, for example is a fire and a combination barbecue. The sleek new barbecues

available today can transform a garden or patio into an outdoor kitchen, a fabulous new cooking and entertaining space. Perhaps one of the best of the is the new Office Gullo gas BBQ. Crafted in stainless steel it has a unique choice of finishes and available in three sizes. It's a high-performance functional piece. In London's beautiful Belgravia, a stately Georgian Villa has recently had a stunning Office Gullo kitchen installed, resulting from a collaboration between Office Gullo and the homeowner interior architect Alison Henry. Adjacent to Alison's magnificent kitchen area, the garden space acts as a continuation of the living space with the addition of an Office Gullo barbecue with the same finishes and colour as the main kitchen area.

ALISON HENRY'S BELGRAVIA HOME

OFFICE GULLO BBQ200

Office Gullo's new barbecue line is for outdoor cooking enthusiasts who prefer to grill with the utmost convenience. Office Gullo excels in professional quality cooking systems, and their exclusive design barbecue available in three models crafted from stainless steel and painted in a choice of colour from the extensive RAL range and in custom shades. There is also a selection of finishes for the brass detailing. Every BBQ can be uniquely personalised, and the three sizes available are 60 (BBQ60), 100 (BBQ100) and 140 (BBQ140) cm wide.

## INTERIORS

**INNOVATIVE DESIGN**  
 Left: Kitchen collaboration between Alison Henry Design and bespoke Florentine kitchen maker, Officine Gallo, [alisonhenry.com](http://alisonhenry.com) Below: Ledbury Studio designed pied-à-terre kitchen, [ledburystudio.com](http://ledburystudio.com)

Saying the kitchen is the heart of the home is one thing, but making it truly play this role means that all eyes and all paths through the house should lead into it, says interior architect Alison Henry ([alisonhenry.com](http://alisonhenry.com)), whose show-stopping white and nickel-trimmed kitchen by Officine Gallo (price on application, [officinegallo.com/en](http://officinegallo.com/en)) and set within a new orangery is, together with the garden beyond, the very first thing you are greeted with as soon as you step foot through the front door.

"I wanted a kitchen that would complement the Georgian architecture and look and feel like a glamorous space for entertaining guests – the Calacutta Caldia Italian marble looks so pretty when lit up at night and all the appliances are professional performance quality but suitable for everyday use within the home too. I also wanted the space, which I created with the architect Rod Massey ([rodmassey.com](http://rodmassey.com)), to be easy and comfortable to use as a family, and for the garden to be as much a part of the kitchen as the dining room at the front of the house." ■

Sophia Salaman chooses the best merchandise and events worldwide

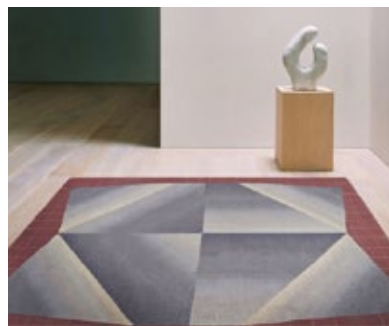

Following the launch of its 148sq m showroom in London's Brompton Road this spring, Smallbone has announced a new retail partnership with Officine Gullo. The Florentine company will be showcasing its specialist cooking equipment, forged in the Tuscan metalworking tradition, in the new space. Visit [officinegullo.com](http://officinegullo.com).

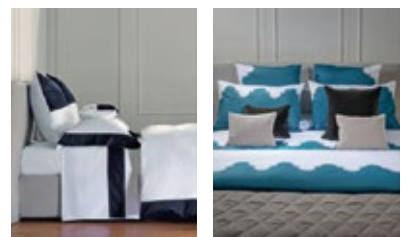

Schumacher's classic fabrics have been playing a part in taste-defining interiors since 1889. 'Indian Arbre', a tree-of-life pattern, is typical of the sort of designs that will transform a room ceiling to skirting. The US company's new showroom is set to open this spring at Design Centre Chelsea Harbour. Ring 020 4532 0960, or visit [fischumacher.co.uk](http://fischumacher.co.uk).

The Mandarin Oriental in Milan is located a few steps away from the city's fashion and cultural quarters. Housed in four 18th-century buildings, the hotel features imposing inner courtyards behind its elegant façade. The architecture and interiors practice Antonio Citterio Patricia Viel spearheaded the restoration project. Visit [mandarinoriental.com](http://mandarinoriental.com).

Lady Dyson was inspired by paper and stone for her latest collection. The designer says that she was struck by the beauty and simplicity of these two everyday materials. The range is made up of seven 'paper' carpets – inspired by the crumpled, folded and torn – and three stone-themed wall hangings. Visit [deirdredyson.com](http://deirdredyson.com).

Rivolta Carmignani has been creating fine linens in a historic area just outside Milan ever since it was founded in 1867. A family-owned company now in the care of the fifth and sixth generations, it prides itself on creating products of timeless elegance and the highest quality. Visit [rivoltacarmignani.com](http://rivoltacarmignani.com).

**HOGLA EXTRA LARGE HOUSEHOLD BASKET**  
 When storage is both beautiful and practical; this basket, made from hogla seagrass, is spacious enough to store a mini-library of books or magazines, or perhaps linens or houseplants – the possibilities are endless.  
 £255, *Summerill & Bishop, 58 Elizabeth Street*

Manfredi Conforzi of Officine Gullo, a luxury Italian kitchen company that recently arrived in Victoria, on how kitchens have become more important than ever in our Covid world

Lockdown has drastically changed the perception of the kitchen as it has become the pivot point of the daily routine. What was once the main space for cooking and clearing up, as well as kitchen meals, has had to be versatile, to be transformed into an office, dining room, conference call room, play area for children and even perhaps for same, a place to exercise!

Kitchen storage has simply adapted to the more intense attention and use of the kitchen. I think that with people spending more time at home, cooking from home and perhaps widening their variety of ingredients, the demand for pantries and larders has certainly increased. A larger cupboard can also double up as a breakfast bar, which is popular.

Every kitchen space deserves its own vision which is drastically altered by each homeowner. For me though, the dream would be to have an open-plan kitchen with lots of space, connecting with the sitting room and the outdoors, creating a light, bright and extensive living area. I consider the key elements to be the cooking ranges, the functionality. While we all want a kitchen to be beautiful, they need to work too.  
 12 Francis Street, [officiengullo.com](http://officiengullo.com)

**RESTART COLLECTION**  
 Inspired by the design and décor of old Florentine villas, the Restart collection, shown above, continues to be crafted near Florence in the

## OBJECTS *of* DESIRE

GIVE THE KITCHEN KUDOS

### Switch it

The devil's in the detail, as they say, and we'd agree that it's often the finishing touches that can really make or break a room design. So don't ruin your chic splashback or worktops with boring sockets: these aged brass examples from deVOL will complement a warm scheme and create cohesion. From £40. [devolkitchens.co.uk](http://devolkitchens.co.uk)

### Globetrotter

Antique brass combines with a textured glass shade to give this holophane pendant from Pooky a vintage feel. Each globe contains three bulbs, providing more than enough brightness to safely illuminate any slicing and dicing. Fit it on a dimmer, though, and you'll get lovely soft mood lighting too. £230. [pooky.com](http://pooky.com)

### Top of the range

For a truly showstopping centrepiece in the heart of your home, how about this royal blue range from Italy's Officine Gullo? It has solid brass doors and no fewer than eight burners. Of course, it will rather raise expectations of what's for dinner, so you'd better make sure your cooking is up to it... Restart range, £16,668; hood, £10,596. [officinegullo.com](http://officinegullo.com)

### High and mighty

Looking for some Art Deco inspiration for your breakfast area? The Coco bar stool is just the right blend of straight lines and soft curves. And not only will you be perched comfortably, thanks to the padded back and foot-rest, but the blue cotton velvet will add a welcome pop of colour to the room. £650. [sofa.com](http://sofa.com)

**ДАЙДЖЕСТ  
НОВОСТИ**

ГАБРИЭЛЬ ШАНЕЛЬ ОЧЕНЬ ЛЮБИЛА ВЕНЕЦИЮ, ПОЭТОМУ В КАЖДОМ УКРАШЕНИИ НОВОЙ КОЛЛЕКЦИИ CHANEL HAUTE JOAILLERIE ПОД НАЗВАНИЕМ ESCALE À VENISE ЕСТЬ ОТСЫЛКА К ОДНОМУ ИЗ СИМВОЛОВ ГОРОДА. ТАК, КОЛЬЕ CONSTELLATION ASTRALE ИЗ ЛАЗУРИТА СО ЗВЕЗДОЙ ИЗ ЖЕЛТОГО САПФИРА НАПОМИНАЕТ МОЗАИКУ СО ЗВЕЗДНЫМ НЕБОМ, НА ФОНЕ КОТОРОЙ СТОИТ ЛЕВ НА ФАСАДЕ БАЗИЛИКИ САН-МАРКО.

До конца марта 2021 года двери нового шоурума Sahra на виа Мандони, 38 в Милане открыты для всех, кто интересуется историей ковров. В рамках проекта Heritage Forever коллекция бренда покажет сокровища, которые хранятся в их архивах, и самые коллекционно антивейринг ковров. В новом пространстве также появились мебель Elie Saab, Maison и винтажные предметы из галереи Bernardini Milano.

**За стеклом** The Orangey — это новый совместный проект Элизон Генри и компании Office Givo. Архитектору надо было гармонично вписать современное оборудование в историческое окружение: пространство для кухни находилось в оригинале при лондонском особняке 1838 года постройки. Элизон намеренно выбрала белые матовые фасады из стали и постаралась максимально скрыть всю технику —

## Завтрак в саду

Дизайнер Элисон Хенри, приложившая руку к смене обстановки The Dorchester Hotel в Лондоне и The Peninsula в Гонконге, занялась обустройством собственной георгианской виллы 1832 года в лондонской Белгравии. Для кухни она выбрала оранжевую, примыкающую к основному зданию. Оригинальную идею помогла осуществить флорентийская компания Officine Gullo, сделав под заказ белоснежный гарнитур из прочной стали с нарядным белым покрытием. Цветовое решение продирижовало наполненное светом пространство с прозрачным потолком и стеклянными стенами, выходящими в сад. Проект Officine Gullo получился не только ослепительно красивым, но и вполне практичным: помимо холодильника и прочей техники, в кухне-оранжерее разместились системы хранения и остров, за которым хозяйка сможет завтракать вместе со своими четырьмя дочерьми. Любый день будет хорошим, если пить утренний кофе, глядя на небо и прекрасные растения.

## Серый кардинал

Диван из новой коллекции Mirage, созданной дизайнерским дуэтом Castello Lagravinese Studio для итальянского мебельного бренда Giorgio Collection, станет таким, как вам захочется: выбор обивки – от дорогой кожи с принтом ящерицы до велюра и ткани. Но наш фаворит – матовый нубук, с которым контрастируют ножки и элементы подлокотников из никелированной стали. Дело не только в текстуре материала. Аристократический дымчатый оттенок внушает спокойствие и допускает соседство с яркими акцентами в интерьере. Недаром одним из цветов этого года Pantone объявил Ultimate Gray, или «безупречный серый». Ищите Mirage, который легко впишется в любую систему эстетических ценностей, в дизайн-центре Casa Ricca Expro.

## ВЫБОР КУХНИ

идеи и материалы Елена Ефремова

# Новый вкус

Зачем спорить о вкусах, когда каждый может выбрать то, что ему больше нравится. В дизайне кухонь этот выбор по-настоящему богат

**Уникальным** в производстве кухонь из металла компания Officine Gallo продолжает использовать старинные технологии и традиционный дизайн, но всякий раз добавляет новых впечатляющих результатов. Сочетание разных комбинаций цветов и отделки делает каждый проект неповторимым. Этот завершенный глубоким сварочным цветом фасада и яркой полированной латуни. Представительство WW.T.S.

## ДОСЬЕ КУХНЯ

Кухня Officine Gullo с фасадами цвета Ocean Blue и латунной фурнитурой.

**КУХНЯ OFFICINE GULLO  
В ЦВЕТЕ OCEAN BLUE**

"Как океан — тонкий в глубине и яркий на поверхности" — именно такой цвет фасадов кухни заказали у мастеров компании Officine Gullo для дома во Флориде. В сочетании с традиционными для марки латунными деталями этот оттенок синего выглядит еще ярче. Вся кухня уместилась в острове — с одной стороны встроены две духовки, шесть газовых конфорок и прибор для варки пасты, а с другой — раковина, просторная рабочая зона и много шкафчиков. Венчает композицию массивная вытяжка, в которой есть специальная полка для хранения кастрюль и сковородок.

Les cuisines

## Des styles à la carte

Les nouveautés des cuisinistes associent belles matières et finitions soignées, dans de multiples variations et possibilités, pour créer des cuisines toujours uniques.

RÉALISATION Aurore Lameyre assistée de Joanne Faber

### L'accord des contraires

Distribution parfaite des formes et des fonctions : les éléments de cette cuisine sont répartis sur un seul mur dans un contraste appuyé de matériaux et de tonalités. Les meubles bas sans poignées, en blanc velouté mat, contiennent les fonctions de base, de lavage et de cuisson ; au-dessus, une armoire constituée de carrés parfaits à façades en aluminium brossé noir accueille les verres et la vaisselle.

**Le plus :** la table haute en planches de chêne, de taille plus généreuse qu'un plateau snack.

Modèle SieMatic Colors, SieMatic.

Surface composite ultra résistante en Coverlux, Statuario Bianco, PORCELANOSA.

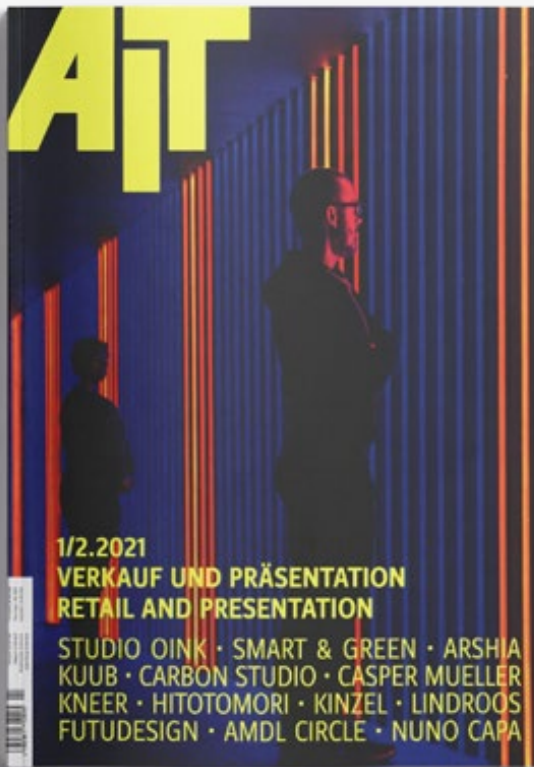

### Précieuse luminosité

Élegance et clarté distinguent cette composition, où quelques brillants détails de laiton chromé répondent à la finition gris clair de l'acier, associé à l'éclat du blanc pur du bois peint.

**Le plus :** tout est personnalisable à la demande, des dimensions de chaque élément à la composition de la plaque de cuisson, de la gravure des boutons poignées aux couleurs de l'ensemble.

Modèle Silver Grey, Officina Gullò.

# KÜCHENTEMPEL

AUSSTELLUNGSRAUM FÜR KÜCHENPLANUNG IN EINER RENAISSANCEKAPELLE IN FLORENZ

Die Küchenzeile als Altartisch: In einer Seitenkapelle des Klosters San Salvatore di Ognissanti präsentiert sich neustens ein Florentiner Edelküchenhersteller. Mit der sakralen Inszenierung der Marke ist es dem Thinktank SuperSpatial gelungen, die baulichen Veränderungen unterschiedlicher Epochen zu erhalten und in ein zeitgemäßes Gesamtbild zu übersetzen. Dadurch konnten neue Denkmalwerte generiert werden.

A kitchen as an altar: Since recently, a Florentine manufacturer of top kitchens has been presenting itself in a side chapel of the San Salvatore di Ognissanti monastery. With the sacral staging of the brand, the SuperSpatial think tank successfully preserved the constructional alterations from different eras and translated them into a contemporary overall picture. As a result, new monument values have been generated.

## Design and remarkable Italian craftsmanship

continuous pursuit of quality, Officine Gullo and his three sons have created the finest Italian kitchens. Built according to tradition, the tailor-made kitchens are timeless masterpieces that integrate the most modern technology. From functionality to aesthetics, Officine Gullo makes sure that each piece meets the highest standard of excellence. Featuring noble metals such as high-thickness steel, burnished copper, cast iron and brass, the iconic kitchens show the company's expertise in precision mechanics. They are entirely designed and produced in the Tuscan countryside near Florence and celebrate the centuries-old craftsmanship of Italian artisans.

By ingeniously mixing the contemporary with the traditional, the brand offers the most elegant and technologically advanced cooking ranges, barbecues, wine

cabinets, built-in appliances, tableware and accessories. Taking into account not just spatial demands but also individual requirements and preferences, Officine Gullo's bespoke kitchens demonstrate an undeniable quest for absolute quality.

The renowned brand recently opened a new showroom in West Hollywood which features the two complete kitchen collections "Tailor Made" and "Contemporanea", and allows you to discover equipment used by the world's best chefs. "Every Officine Gullo creation is a new experience that tells a different story: it's a product of a complex artistic and architectural process that revolves around the personality of each client and the endless possibilities of our prototypes." With Officine Gullo, cooking has never been this enjoyable.

high-end features with warm woods and casual touches that complement Serena's laid-back vibe resulted in a cohesive visual narrative that embodies Serena's newly evolved design aesthetic, which Haffey calls "livable luxury," adding that the client was a well of creativity, serving up references from hotels she's stayed at all over the world.

"Serena is not formal," Venus notes. "She's fun-loving; she's very free, and not someone who wants to sit in a chair and serve someone tea. So it had to be a very welcoming space."

At Serena's request, the V Starr team came up with an out-of-the-box design solution to refashion what was once a classical Floridian-style foyer and formal sitting room with beautiful chairs no one sat in, into a colorful art space with eccentric pieces on display. "When you walk in, it's like walking into an art gallery," says Serena. "That's my favorite part of the house. It's so unique. I've never seen anything like it."

Venus adds: "I am not a fan of just having spaces to have them. Maybe some people use their formal living rooms

Officine Gullo presents a new space for Beverly Blvd - West Hollywood, Los Angeles, in the heart of the Design District: a cultural destination for high-caliber design, art, fashion and high-level dining. This is a rare opportunity for quality Italian craftsmanship and design, for which the Italian company is renowned worldwide.

The new showroom consolidates Officine Gullo's presence, providing clients with the opportunity to view the complete range of Officine Gullo kitchen collections for the first time on the West Coast. The elegant and exclusive ambience is the perfect setting in which to appreciate fully the trademarks of the luxury Italian brand.

The showroom features the two complete Officine Gullo kitchen collections: "Tailor Made" and "Contemporary". Various cooking ranges, appliances and accessories are also on offer, in addition to the beautiful "islands" that can be used for the furnishings. In the showroom, clients can explore the history of Officine Gullo products and learn more about the broad selection of colors and metal finishes, as well as the myriad tailor-made options by Officine Gullo.

"We wanted to design a space that wasn't just a showroom, but a place where clients can gain, create, invest, and get to know our models and materials. Every Officine Gullo creation is a new experience."

DISCOVER OG BARBECUE

SPECIAL FEATURE

138 December 2020

# GRILLING *in Style*

*Perfect for outdoor cooking enthusiasts who prefer to grill with the utmost convenience, Officine Gullo presents a collection of barbecues that displays a wealth of expertise in cooking systems.*

Officine Gullo gas barbecues stand out because of the professional quality of the cooking systems and their exclusive design. Crafted in stainless steel, the barbecues can be painted in any colour in the RAL range as well as in custom shades available on request. A variety of finishes for the brass details are also on hand. Every BBQ can be uniquely personalized. The barbecues are available in three sizes: 80 (BBQ80), 100 (BBQ100) and 140 (BBQ140) cm wide. Built-in versions are also an option for all three sizes.

The OG BBQ80 Barbecue has 6 high-performance 23 kW burners and sturdy thick stainless-steel grills. The perfect nonstick surfaces allow excellent results to be achieved, even for the most delicate dishes. The distinctive wave structure is the hallmark of the product's exclusivity.

The OG BBQ100 Barbecue, with a 2,920 cm<sup>2</sup> cooking area, has 8 high-performance 31 kW burners and sturdy 9.5 mm thick stainless-steel grills. The perfect nonstick surfaces allow excellent

results to be achieved, even for the most delicate dishes. The distinctive wave structure is the hallmark of the product's exclusivity.

The OG BBQ140 BUILT-IN Barbecue boasts an impressive cooking surface measuring 3,543 cm<sup>2</sup> and a total of 9 high-performance burners at 39.2 kW. The cooking area consists of two units: the first has sturdy stainless-steel grills, 9.5 mm thick and measuring 72 x 46 cm. The perfect nonstick surfaces allow excellent results to be achieved, even for the most delicate dishes. The distinctive wave structure is the hallmark of the product's exclusivity. The second unit consists of the infrared cooking area, 47x46 cm. This is a high-temperature cooking surface, which reaches 980° due to the ceramic cooking top. In direct contact with an intense source of heat, similar to charcoal, meats brown rapidly, ensuring tender and succulent results.

DESIGN TALKS

BESPOKE BEAUTY

Officine Gullo, creator of the finest Florentine kitchens, uses Italy's signature metalwork style to handcraft specially tailored masterpieces that bring the perfect blend of tradition and modernity to the heart of your home.

**T**he name Officine Gullo is synonymous with the flawless combination of authenticity and innovation. Taking the finest 19th-century Florentine cooking customs as inspiration, each of its creations is born of the Gullo family's unwavering creativity, non-stop mechanical engineering research and passion for top-class handcraft. With expertise, care and attention to detail present in every step of the production process, each of its kitchen masterstrokes is created to the highest level of quality.

A prime example of this excellence is the bespoke jet-black and polished-chrome Officine Gullo kitchen installed in an exclusive apartment in the heart of Manhattan, New York City. In this all-amenities kitchen, metal pairs harmoniously with light-oak cabinets. The personality of the steel, powder-coated in glossy jet black, the elegance of the light-grey cabinets and the polished chrome details and finishes exude endless style and refinement.

"The initial vision of the project differs very little from its realisation, only for small details of a practical nature," explains project manager Alessio Annunziata. "From the very first approach, it was quite clear how it would develop.

ABOVE A striking and elegant jet-black and polished-chrome Officine Gullo kitchen featuring light-oak cabinets, located in an exclusive Manhattan apartment in New York City.

BELOW Cabinet details.

We had the best space in the property available and we wanted to make the most of it, but also thanks to the close cooperation with the customer, who already knew what he wanted to obtain from this space he was going to live in."

The kitchen perfectly reflects the apartment's exceptional quality, both in terms of design and performance. Outfitted with professional, high-performance appliances. >

## Perfect Pairings by Brooke McGuyer Hutson, Architect Michael Dreef and Builder Andy Abercrombie

*Designer Brooke McGuyer Hutson marries old with new and style with function in her clients' Texas home.*

Text: Tiffany Adams  
Photography: Michael Hunter

"We wanted a new house with old elements," says the owners of this Houston residence. Their vision fell into place over the course of several years with the help of interior designer Brooke McGuyer Hutson of Brooke McGuyer Interiors, architect Michael Dreef of Eubanks Group Architects, and builder Andy Abercrombie of Abercrombie Custom Homes—all of whom were on the project from its start. Beginning with the exterior, the team blended Old World style with present-day sensibility in what Dreef calls an "English Georgian-style home with classical details."

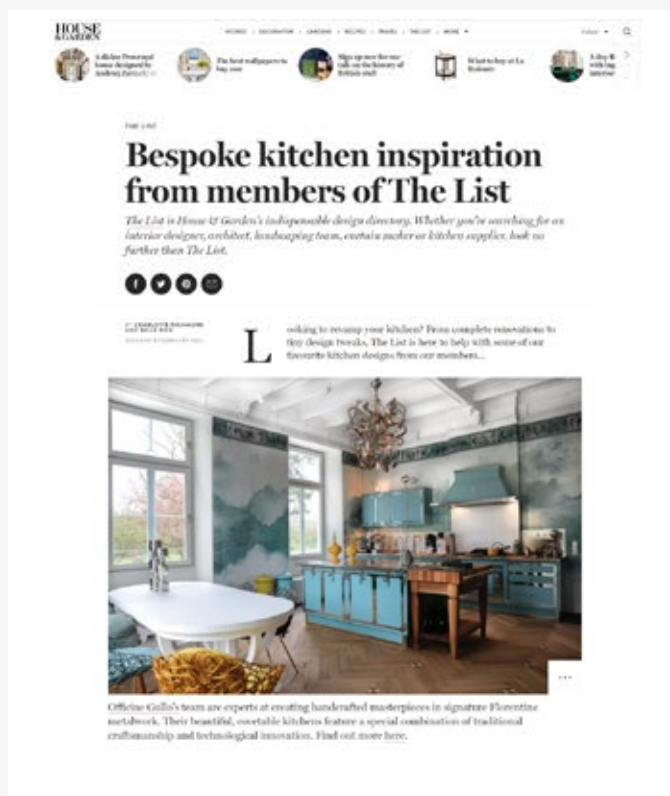

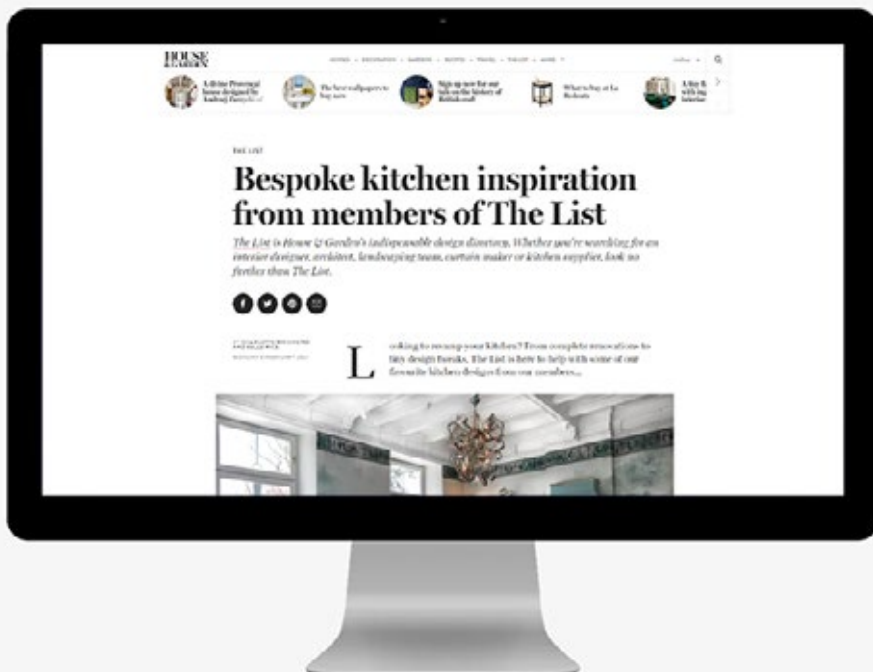

Inside, Hutson continued the custom blend with a symphony of antiques, fabrics, and accessories to illustrate the couple's love of traditional manor style while giving them all the modern conveniences and warmth security built homes afford. "They wanted a house where they could entertain but that was also comfortable and cozy when it's just the two of them," says the designer. To convey authenticity, a number of reclaimed building materials and timeless finishes were used. Starting in the foyer, antique wood floors flow throughout the main level, while overhead, repurposed beams from a south Louisiana farm give the structure an understated grandeur. Each of the home's seven fireplaces were outfitted with antique mantels, and reclaimed doors were used throughout when possible. In addition, Houston-based finish design firm Segreto finishes covered the majority of the walls with a veneer plaster as a nod to the European design influence. All of these elements work to give the effect that the home has been in place for decades, if not centuries. However, none of the features were happenstance. "The reason we were able to do this is because the couple formed such a lovely team from the start. I really leaned on the architect and builder in asking, 'Will this reclaimed surround work with the firebox?' and 'Can millwork be fitted to these doors?'" says Hutson of the detailed plans.

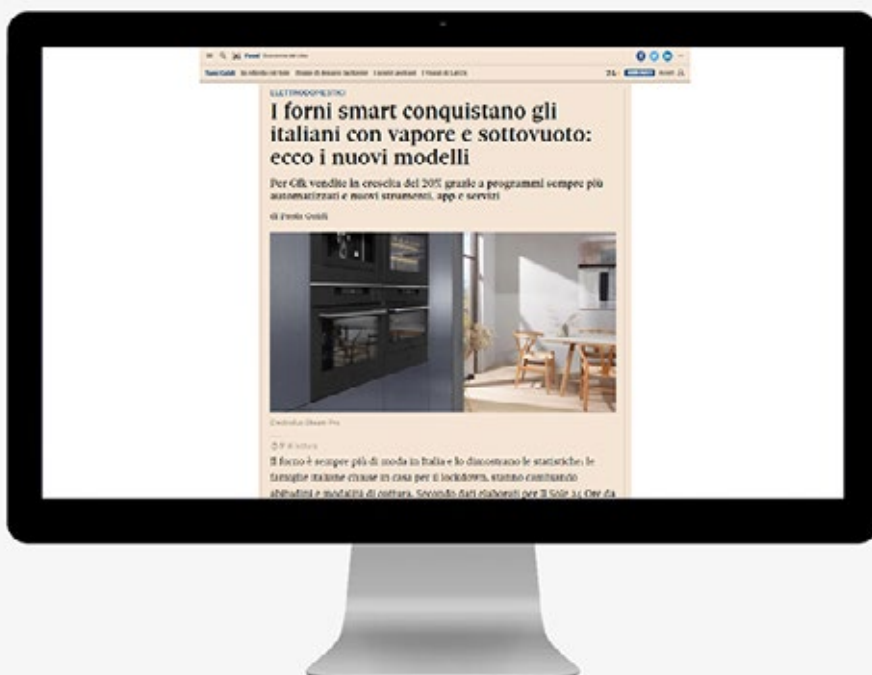

This thoughtful approach carries throughout the interior, where style is balanced with function and practicality. In terms of layout, having the kitchen, breakfast room, and family room open to one another was important to the owners. "They live in this area," Hutson says of the adjoining rooms that flow gracefully one to another thanks to unifying design treatments. In the kitchen specifically, an Officine Gullo range provides all the bells and whistles a chef could want, while a coordinating custom hood and antique bell jar pendants bring the style.

"There's a very Southern, Lowcountry feel here," says Hutson of the space, pointing to the room's brick surround. "To me, when you mix materials and antique styles into a home versus doing all-new pieces, you create a home with so much interest." Similarly, the catering kitchen and butler's pantry don't deviate from the aesthetic: A Delft tile-inspired backsplash makes a statement in the kitchen, while the owners' exquisite china collection is displayed as art behind glass in the pantry's custom-built, built-in storage cabinets.

As avid antiques collectors, the couple didn't start from scratch when it came to furnishings. "Furnishing this house was like a big puzzle, because they had so many great pieces; it was all about figuring out what looked best where," says Hutson. The collectibles were complemented with inviting upholstered pieces to convey the desired sense of comfort. For example, in the great room a pair of new custom, velvet Knole sofas are a luxurious spot to relax and strike a balance amid the room's wooden pieces, including the flooring and beams. Upstairs in the family room, a blue floral fabric was repeated on plush upholstered pieces, pillows, and draperies to create a comfortable but polished look. "This house has a European sensibility that is met with Southern hospitality," says Hutson. "They

## I forni smart conquistano gli italiani con vapore e sottovuoto: ecco i nuovi modelli

Per GfK vendite in crescita del 20% grazie a programmi sempre più automatizzati e nuovi strumenti, app e servizi

di Paolo Ghisli

Continua a leggere su

24

Il forno è sempre più di moda in Italia e lo dimostrano le statistiche: le famiglie italiane chiuse in casa per il lockdown, stanno cambiando abitudini e modalità di cottura. Secondo dati elaborati per Il Sole 24 Ore da GfK, nel periodo gennaio-novembre 2020 gli acquisti dei forni hanno registrato, rispetto allo stesso periodo del 2019, un **aumento in valore del 21,5% e del 19% in unità**. Il che significa che i consumatori non solo usano di più il forno, ma anche che hanno scelto apparecchi più performanti e innovativi rispetto al passato. Per quanto riguarda il piano di cottura l'aumento in valore è stato del 41 per cento e del 8,7 per cento.

### Gli effetti del lockdown sulla dieta

Il forno sta diventando sempre più importante per diversificare la dieta, preparare contemporaneamente più piatti e infine per consentire varianti personali appetitose. Negative invece le vendite dell'incasso presso i mobiliari con percentuali tra -10 e -14 per cento, ma non come si temeva all'inizio dell'anno a partire da maggio infatti i negozi hanno potuto ripartire e, stando ai primi consuntivi, gli italiani sono tornati a comprare mobili per la cucina con aumenti anche a due cifre. Il Covid-19 ha, per così dire, fatto bene all'alimentazione delle famiglie, sia in Italia che in tutto il mondo facendo calare ovunque i consumi del junk food.

Ed ecco quali sono i trend delle nuove tecniche e dei nuovi modi di cucinare, tenendo conto che i forni più recenti sono in grado di "imitare" qualsiasi tipo di cottura tradizionale del classico piano con i fuochi o di quello a induzione. Perfino un'operazione difficile come la tritura in modo da soddisfare il palato e la dieta.

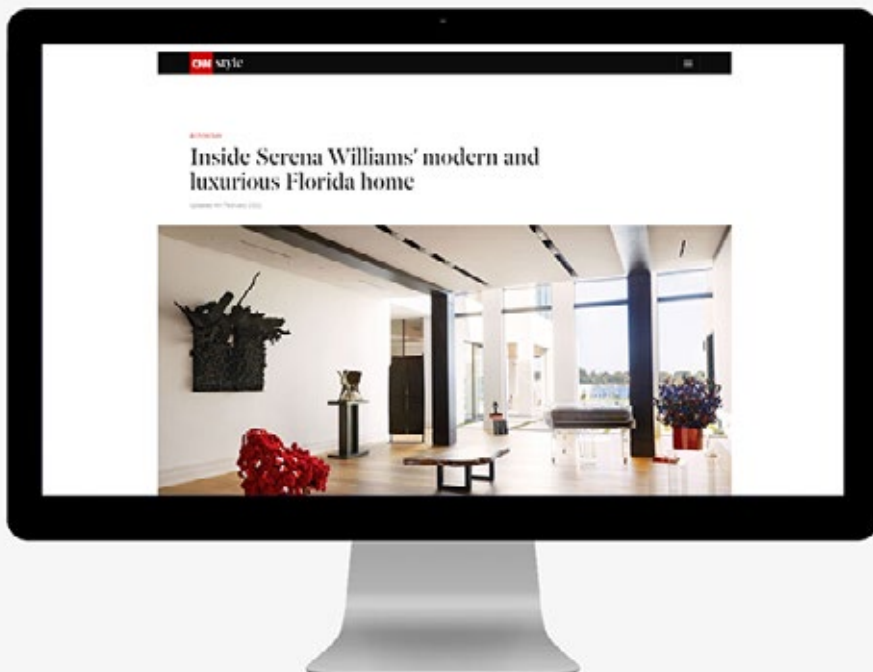

### Il forno-girarosto

**Ottavio Gallo** è uno specialista della cottura di superuovo e qualità che realizza cucine in residenze esclusive in tutto il mondo, come simbolo del made in Italy più qualificato. Tra i forni, tutti realizzati in materiali e lavorazioni speciali e artigianali, ma con tecnologie da cucine stellate, segnaliamo Rotisserie 70 cm, un forno da incasso particolare poiché accontenterà i cuochi che amano la cottura più antica al mondo, quella allo spiedo, con il girarosto, adatta a qualsiasi cibo.

Ottavio Gallo

La carne allo spiedo va fatta girare lentamente sulla fonte di calore, in questo caso si tratta di un girarosto elettrico adatto a grandi porzioni e interi polli. Il sapore e il profumo di un cibo cotto in questo modo sono inconfondibilmente irrresistibili. Il forno, con un isolamento adatto al grande calore generato, ha la porta in vetro. Le finiture: ottone, rame, acciaio inox, nichel satinato oppure acciaio verniciato con colore personalizzato.

INSIDER  
**Inside Serena Williams' modern and luxurious Florida home**

By Sarah Lyall

PHOTO BY  
 Andrew Adams, CNN

**W**hen Serena Williams purchased her waterfront home north of Miami, she was embarking on a new journey. After over 20 years, the tennis star was leaving the home she'd shared with her sister, fellow tennis champion Venus, to lay down roots in her own primary residence.

While she spends time and spent time in other secondary properties, this was an emotional milestone. "I was moving away from Venus for the first time in my life, so I wanted it to be really meaningful," Williams told *Architectural Digest*.

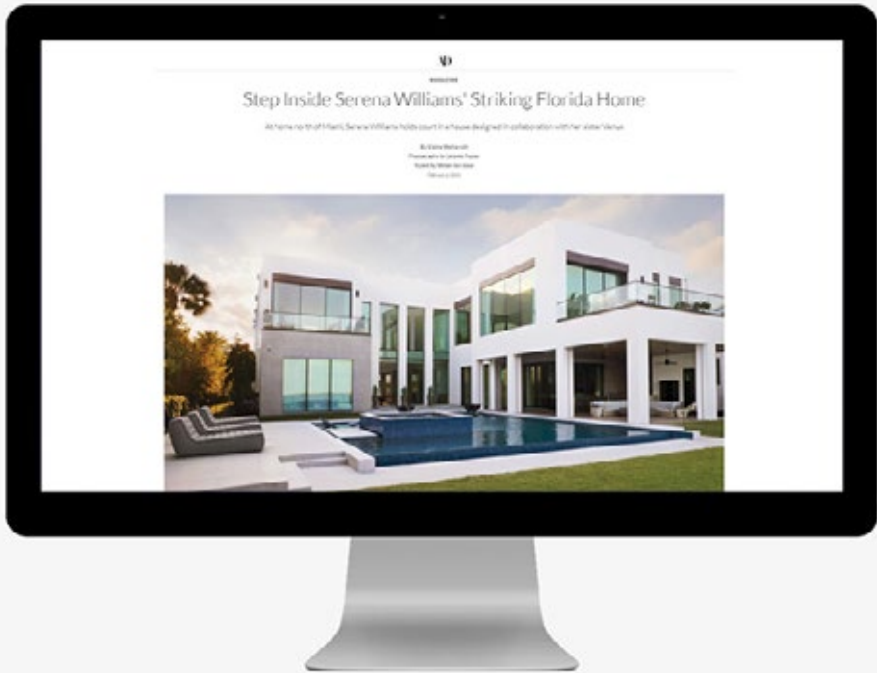

The kitchen, designed with her personal chef. (CNN/Andrew Adams)

PHOTO BY  
 Mike Guadalupe for a glimpse inside her elegant New York home.

To completely transform and modernize the 14,000-square-foot, Spanish-Mediterranean-style mansion, Serena enlisted V-Star, the design firm Venus founded in 2002. And now, four years later, she's revealed the stunning end result in the pages of *Architectural Digest's* March 2022 issue.

Minimal and modern, the interiors were inspired in part by hotels Serena had visited during her travels around the world. Perfectly suited to comfortable quarantine living, the house has its own gym, sauna, wine cellar, refectory and karaoke room (designed for "serious karaoke singers only," the sisters joked) and a 900-square-foot, boutique-inspired closet.

For Williams, the self-styled cook of the family, the kitchen was especially important. Designed with her personal chef, it embodies what V-Star principal Sonya Haffner called "livable luxury," with open wall ovens from the German heritage manufacturer Gaggenau, a hoodtop from Florence's Officine Gullo, and quartz counters interlarded with the warm wood of the flooring and dining set.

## Step Inside Serena Williams' Striking Florida Home

At home in Fort Myers, Serena Williams holds court in a house designed in collaboration with her sister Venus.

As with any other client, there was one primary concern: Williams wanted a house that was both modern and comfortable. The house is a striking white, multi-story modernist with large glass windows and a swimming pool in the foreground.

Like all other clients, Williams wanted a house that was both modern and comfortable. The house is a striking white, multi-story modernist with large glass windows and a swimming pool in the foreground.

### LUXURY ITALIAN KITCHEN APPLIANCE BRAND OFFICINE GULLO OPENS LA SHOWROOM

The luxury kitchen appliances and accessories, handcrafted in Florence, will now be on display at a new West Hollywood showroom.

OCEAN HOME MAGAZINE • JANUARY 28, 2021

Officine Gullo has opened a showroom on Beverly Boulevard in West Hollywood, Los Angeles. The showroom joins their Manhattan store as the second US location.

The Italian brand is renowned worldwide for its quality kitchen craftsmanship and design. The showroom is fittingly located in the heart of the Design District, a cultural destination known for high-caliber design, art, fashion, and dining.

The new showroom consolidates Officine Gullo's overseas presence, providing clients with the opportunity to view the complete range of Officine Gullo Kitchen collections for the first time on the West Coast.

The elegant and exclusive ambiance is the perfect setting in which to appreciate fully the hallmarks of the luxury Italian brand.

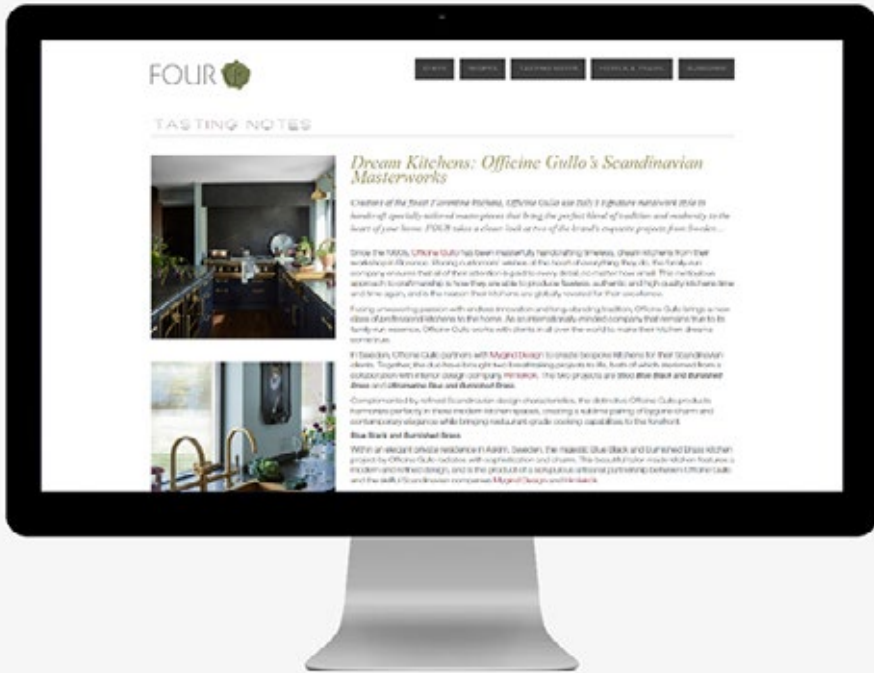

The showroom features the two complete Officine Gullo kitchen collections: "Tailor Made" and "Contemporanea." Various cooking ranges, appliances, and accessories are also on public view, in addition to the materials which can be used for the furnishings.

"We wanted to design a space that wasn't just a showroom, but a place where clients can plan, create, invent, and get to know our models and materials," says Matteo Gullo, Officine Gullo's US general manager. "Every Officine Gullo creation is a new experience that tells a different story. It's a product of a complex artistic and architectural process that revolves around the personality of each client and the endless possibilities of our prototypes."

In the showroom, clients can explore the features of Officine Gullo products and learn more about the broad selection of colors and metal finishes, as well as the brand's myriad tailor-made options.

*Dream Kitchens: Officine Gullo's Scandinavian Masterworks*

Creators of the *Flow* *Flawless* kitchen, Officine Gullo are Italy's signature residential style in hand with globally renowned masterpieces that bring the perfect blend of tradition and modernity to the heart of your home. FOUR takes a closer look at two of the brand's exquisite projects from Sweden...

Since the 1960s, Officine Gullo has been masterfully handcrafting timeless, dream kitchens from the world's finest materials. Strong attention to detail at the heart of everything they do, the family-run company ensures that all their attention is paid to every detail, no matter how small. This meticulous approach to craftsmanship is how they are able to produce flawless, authentic, one-of-a-kind kitchenware time after time, and is the reason that kitcheners are globally revered for their excellence.

Fusing unswerving passion with endless innovation and long-standing tradition, Officine Gullo brings a new class of professional kitchens to the home. As an internationally-minded company that remains true to its heritage, Officine Gullo works with clients all over the world to ensure their kitchen dreams come true.

In Sweden, Officine Gullo partners with Mynord Design to create bespoke kitchens for their Scandinavian clients. Together, the two have brought two groundbreaking projects to life, both of which stemmed from a collaboration with master design company Harsco. The two projects are the *UltraMarine Blue* and *Burnished Brass*.

Complementing refined Scandinavian design characteristics, the distinctive Officine Gullo products harmonize perfectly in these modern kitchen spaces, creating a sublime pairing of elegance and contemporary elegance while bringing restaurant-grade cooking capabilities to the kitchen.

**Blue Black and Burnished Brass**

With an elegant private residence in Århus, Sweden, the majestic *Blue Black* and *Burnished Brass* kitchen project by Officine Gullo radiates with sophistication and charm. This beautiful white marble kitchen features a modern and refined design, and is the product of a successful collaboration between Officine Gullo and the Århus kitchen company Mynord Design and Harsco.

The kitchen space consists of a cooking block, workspace with wash area and a breakfast island. The breakfast bar of the kitchen, completed and installed by Officine Gullo, sits out against the island's wooden structure produced in Harsco's primary workshop and crafted in Århus.

The cooking block is comprised of a professional cooker with 4 burners and a range oven. A multifunction oven and microwave with fast warm-up are located on one side of the island. All the cooking elements made exclusively in solid marble, are capable of professional performance, yet are manufactured according to the principles of household ergonomics to enable comfortable daily or heavy use with the utmost convenience.

The unique semi built-in washbasin with double sink and burnished brass front, not only produced using a solid body in Århus, but also available in a more traditional body. From large, deep bowls, and the sink is accomplished by hand, so too is the burnishing, which lends luster to the lines that embrace character and shade the other side.

The faucet – a striking *Bullington* mixer with jet sprayer, control console and circular handles – is the focal point of the wash area. This exquisite object originates from the centuries-old tradition of refined craftsmanship, making the kitchen with a quest for new achievements in exclusive design and modern functionality.

Each aspect of this project was carefully personalized to meet the client's wishes, as is the case for all Officine Gullo creations. Every project can be fully tailored from the dimensions to the composition of the cooking ergonomics on the handles and the kitchen's colors. Every detail is a result of research and craftsmanship, and the cooking experience is the true foundation of modern kitchens.

**UltraMarine Blue and Burnished Brass**

In the majestic and elegant *Uggle* residence in West-Göteborg, Sweden, Officine Gullo has installed a cooking range from the *Flawless* collection. The range, which is based on research into the design and functionality of old Harsco stoves, fits perfectly with Harsco's elegant yet polished design.

Like the *Flawless* cooking range, the kitchen features a classic front-end finish. The countertop and island are entirely handcrafted in oak and painted in rich UltraMarine Blue (RAL 5002). Burnished brass gives the details a subtle finish, while the *Quadrants* Green Island marble adds to the surface around the space off with an understated elegance.

The *Quadrants* Green Island marble perfectly fits the workspace and is paired in UltraMarine Blue with burnished brass handles to match the remainder of the kitchen. The range consists of a multifunction electric oven with a grill and cooking, electric wall oven, freestanding and elegant OCO convection, the main refrigerator with sink and adjacent space with double and warm tones. The cooking range 5 high-performance burners with safety valve and cast iron grill. A stone shaped front of ultra-marine in solid marble above the burner. The stone above the cabinet of the cooking range, painted in UltraMarine Blue with an elegant burnished brass trim.

The cooking range in the *Flawless* collection are designed to fit into any kitchen space and to create a unique ambience. The hood, panels and stoves, ovens or refrigeration can all be selected to the customer's desired preference. Every Officine Gullo creation is an element of exclusive design, crafted to meet the needs of the client, who can personalize the colors and finishes.

## OFFICINE GULLO RESTART RANGES COLLECTION

From freestanding kitchens to ovens, cooking tops, refrigerators and hoods, every product in the Restart collection is designed to refresh any kitchen.

By House & Garden South Africa | February 9, 2011 | Category

[f](#) [t](#) [g+](#) [v](#) [e](#)

The Restart Ranges collection comes from research into the design and form of old Florentine ovens. As a result of respect, the Restart collection continues to be crafted near Florence, in the heart of the **Toscana** countryside. Expert hands create an exclusive collection of cooking appliances in the company's workshops, as well as **stylish refrigerators**, **outdoor hoods** and kitchen accessories.

**Innovative and high performance** household appliances are finished in the finest materials: solid brass, horizontal copper, antique silver metal and cast iron. Every element is an absolute **exclusive piece** made to fulfil the wishes of every client and can be customized in a variety of colors and finishes.

From freestanding kitchens to ovens, cooking tops, refrigerators and hoods, every product in the Restart collection is designed to refresh any kitchen, regardless of whether it's built in stone or wood.

Every **contoured electric design** the kitchen and enables technology to fit in perfectly with the Restart style.

Freestanding Restart cooking ranges can be positioned anywhere, even separate to the remainder of the kitchen furnishings. This independence as a stand-alone feature, breaking away from continuity and allowing the range to dominate the space. The ranges are available in four models from 90 to 120 cm wide.

In all the four models, the **cool door** of the oven with triple removable glass is perfectly insulated thanks to the three layers. Three configurations available to blend in perfectly with both the most classic and the most contemporary space: brass door, glass door and solid door.
